

Gas Field Services

Mission Statement

Gas Field Services is a flexible, responsive contracting company that provides full turnkey solutions to clients specialising in coal seam gas drilling and well servicing. We aim to provide a streamlined, fully self-contained service to clients, including equipment, labour, drilling and well installation, ensuring that the process of completing operations and doing business is as efficient and convenient as possible.

Gas Field Services views itself as partners with its clients, its personnel, the communities it operates in and the environment. Day to day, we aim to provide an adaptable service that exceeds customer expectations whilst keeping safety and consideration of the environment at the forefront. Our overall aim is moderate growth and profitability whilst maintaining the superior customer satisfaction, safety and environmental responsibility that is core to all Gas Field Services activities.

GFS have now implemented a Fully Integrated Management System to QA Standards.

Quality -AS NZS ISO 9001:2008

Safety -AS NZS 4801:2001

Environment –AS NZS ISO 14001:2007

Stephen Burt,
Managing Director
